## **2010 CENSUS**

As you are aware, this year marks the twenty-third United States Census. Conducted every ten years since 1790 and mandated by the United States Constitution, the Census seeks to count everyone residing in the United States to determine the number of seats each state has in the U.S. House of Representatives, as well as how, in part, the federal government allocates more than \$400 billion to states and communities.

This data is also used to determine locations for retail stores, hospitals, new housing developments and other community facilities.

Within the last few weeks, many Town residents received their Census questionnaires. With only ten questions, the 2010 Census questionnaire takes only ten minutes to complete and must then be mailed back. Households that do not respond may receive a replacement questionnaire in early April. If the replacement questionnaire is not returned, an enumerator will visit the household.

The Census Bureau is currently advising those that receive mail via a Post Office (P.O.) Box to wait for an enumerator to visit their home. As currently scheduled, enumerators are expected to begin this task at the beginning of May.

Please be advised that, by law, the Census Bureau cannot share individual's responses with anyone, including other federal agencies and law enforcement entities. Census Bureau employees take the oath of nondisclosure and are sworn for life to protect the confidentiality of the data.
