- Public Hearing held and Local Law passed on April 18, 2012

Special Election

June 12, 2012

12:00 Noon to 8:00 P.M.

Batavia Town Hall

3833 West Main Street Road

Batavia, NY

Proposition

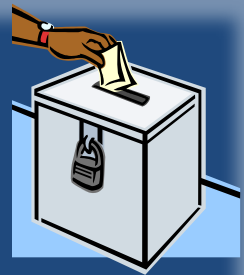

SHALL the Resolution, adopted March 21, 2012, by the Batavia Town Board establishing, subject to Permissive Referendum, the proposed West Main Street Road Sewer District located in the Town of Batavia, New York, upon those portions of West Main Street and Kelsey Roads as bounded and described in a map, plan and report filed in the Batavia Town Clerk's Office on February 14, 2012, pursuant to the terms and conditions as further set forth in said map, plan and report, with a maximum project cost not to exceed the sum of \$2,822,000.00, less \$1,600,000 of grant awards for a total sum not to exceed \$1,222,000.00; BE APPROVED?

Eligible Voters

- All owners of taxable real property located within the proposed West Main Street Road Sewer District, as shown upon the latest completed assessment roll of the Town of Batavia, are eligible to vote
- Multiple owners of real property are each entitled to a single vote
- A corporate owner of such taxable real property shall be considered one owner and shall be entitled to one vote to be cast by an officer or agent of the corporation
- Individuals who reside within the proposed Sewer District who do not own property, (for example, renters and life use tenants), are not eligible to vote

Election Day

- The Town Clerk shall prepare paper ballots to be used by the voters at the Special Election
- All eligible voters must personally appear during the time and date designated. There will be no provisions for absentee ballots
- Each owner who is entitled to vote may cast only a single ballot, even if he/she/corporate owner owns more than one parcel within the proposed Sewer District
- All eligible owners of taxable real property who meet the foregoing qualifications may vote regardless of the physical residence of the individuals or the principal place of business of a corporate entity

Election Details

- The Assessor shall prepare a list of all of the owners described above, and provide the same to the Town Clerk, to be used by the Election Inspectors to monitor eligibility to vote at the Special Election
- Individuals who are eligible as set forth above, do not have to be registered voters with the Board of Elections in order to cast a ballot in this Special Election
- The Town Board shall hire impartial Election Inspectors to monitor the voting process and to certify the Special Election results
- Approval of the proposed Sewer District or disapproval of the same shall be decided by the vote of the majority of the eligible owners who actually cast a ballot upon such Proposition at the Special Election

What a YES Vote Means

- **RECEIVE** \$1.6 Million in Grants
- Public Sewer System would be available if you need it
- Residential Annual Cost of \$248 or \$20.67 per month plus usage cost if choose to connect
- Commercial Annual Cost of \$7.87 per \$1,000 of assessed value plus usage cost if choose to connect
- Increased Property Value

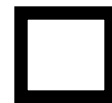

YES

NO

What a NO Vote Means

- **LOSS** of \$1.6 Million in Grants
- Continued cost of maintaining existing septic system
- Future cost of replacing existing system with an estimated range of cost from \$5,000 to \$30,000
- May not be able to replace with a “conventional” system
- Potential of public sewers being mandated without any grant funding

YES

NO

Things to Consider

- Will public sewer be mandated in the future?
 - Watershed water quality initiatives could mandate public sewers in the future
- Can I sell my home?
 - Septic systems are inspected prior to signing to be sure it is operating satisfactorily and meets code
- Is my current system working properly?
 - Septic systems can start to fail without any visual evidence, making it difficult to determine without testing

continued...

Things to Consider . . .

- Can I put in a conventional septic system?
 - Must meet all of the following:
 - 100 feet from any active well (including neighbors)
 - 100 feet from water body or wetland
 - 20 feet from dwelling
 - 10 feet from property lines
 - Outside of 10-year flood prone areas
 - Located in well draining soils
 - Approximately 1730ft² (~32' x 54') of open area for
Typical residential system

Don't Forget to Vote

- *And remember that the Town Engineering Staff is available to answer questions and review site issues with individual property owners*
